[How To Make Reggae Beats On Garageband Ipad](#)

---

Aug 26, 2017 If you are using an older version of Garageband on your iPad, you will need to update it so that you have Live Loops.. By clicking 'Update', the app automatically install the latest Garageband Live Loops version on your iOS device.. No need to Uninstall it to make a way for the newer one, or downloading it again.

Take your reggae beats to the next level and download these apple loops right now.. Good Garageband BeatsDancehall Beats. To download these apple loops click on the download links in the table below If you have an unlimited Platinum Membership you can download this entire loop pack in one easy ZIP.
